Active Transportation Plan

Making it easier to walk and bike in our community

Please provide your input at the Online Open House 2,
May 25–June 12 at BeavertonOregon.gov/activetransportationplan

Helping people get where they need to go safely and efficiently is a top priority for the City of Beaverton.

With the development of a citywide active transportation plan, Beaverton will become a better place for people traveling by bicycle, on foot, by wheelchair or accessing public transit.

The plan will promote walking and biking in Beaverton and will help set the foundation for developing well-connected, attractive bike and pedestrian networks that are safe, convenient, and user-friendly for people of all ages and abilities, whatever mode of transportation you use. The plan will focus on creating active transportation opportunities to get people where they need to go — work, school, appointments and activities.

Project timeline

Let us know about your ride

Download the Ride Report app to report how your bicycle ride went. The project team will use this information to verify routes and community bicycle needs.

Connect and tell us what you think

- Provide input at the online open house, May 25 - June 12
- Attend a committee meeting
- Invite us to present to your group
- Sign up for email updates
