

CI.10

N Peninsular Ave Corridor Improvements

PROJECT DESCRIPTION

N Peninsular Ave is a busy neighborhood collector connecting N Columbia Blvd to N Lombard St in the Kenton Neighborhood. This project would improve existing crossings and add new crossings to meet PBOT guidelines. Upon implementation, PBOT would work with our partners at TriMet to improve access to bus stops and improve bus stop amenities at higher ridership locations.

This project would explore a range of design options to improve the safety and comfort of people biking to important community destinations on N Lombard St and provide a connection to the new bikes lanes that were recently added through the ODOT Lombard Multimodal Safety Project. Additional project elements could include increasing tree canopy, street lighting, and other streetscape improvements.

PROJECT ELEMENTS

SAFER SPEEDS

BETTER CROSSINGS

BETTER BIKE ROUTES

TRANSIT IMPROVEMENTS
