

CI.5 N Willamette Blvd Corridor Improvements

PROJECT DESCRIPTION

This project would implement lower-cost elements of the federally funded Willamette Blvd Active Transportation Corridor scheduled for construction in 2025-2026 (learn more at: www.NWillametteBlvd.com)

These near-term improvements would include new marked crosswalks, improved bus stops, and new buffered bike lanes from N Carey Blvd to N Richmond Ave. In order to facilitate these changes, on-street parking would be removed in this section of N Willamette Blvd.

PROJECT ELEMENTS

BETTER BIKE ROUTES

BETTER CROSSINGS

SAFER SPEEDS

TRANSIT IMPROVEMENTS

ESTIMATED PROJECT COSTS:

low*

[varies greatly depending on scope]
