NG.5

N Princeton St Neighborhood Greenway

PROJECT DESCRIPTION

A new Neighborhood Greenway through the University Park neighborhood connecting multiple smaller neighborhood parks, Astor Elementary, and Columbia Park.

At the western edge, this Neighborhood Greenway would provide a connection to the Peninsula Crossing Trail and future protected bike lanes on N Willamette Blvd.

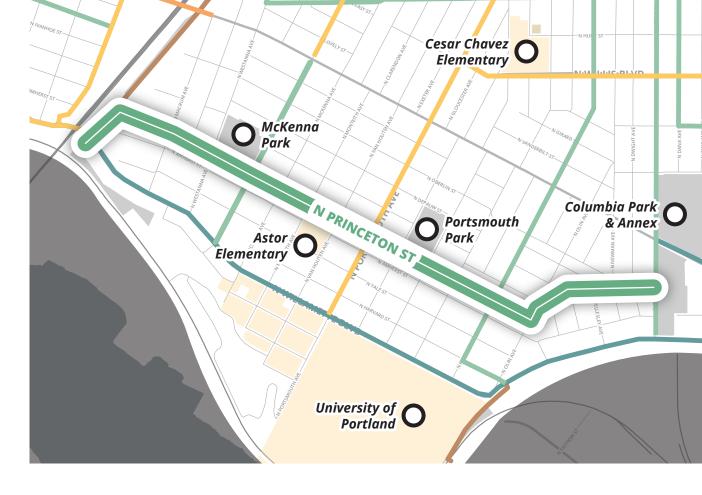

This project also would include a new Safe Routes to School identified crossing at N Portsmouth Ave.

Project elements may include:

- · Wayfinding and signage
- Speed bumps as required
- A new enhanced pedestrian crossing at N Portsmouth Ave
- Initial analysis suggest that this route already meets PBOT standards for traffic volumes on Neighborhood Greenways; traffic diversion is not likely to be required.

ESTIMATED PROJECT COSTS:

Astor Elementary School
